- **Common ERP Upgrades**: Supplier may make suitable changes in product offerings & /or product platform due to changes in technology, Market Demands, Security concerns and the same will be available automatically to Purchaser. For optimization of ERP, rarely Supplier may discontinue some of the old / less used / redundant / out-of-date sub-modules / facilities. Supplier may remove/modify some of the facilities / menu options / processes based on Security reasons. Same will be applicable to Purchaser without any change in billing value.

For all mistakes made by Purchaser's Users and noticed at later stage, correction at User end may not be possible. Same will be resumed after all the dues are cleared by Purchaser along with Cloud restoration Charges. To avoid various inconveniences due to Cloud disconnection, Purchaser needs to ensure On-time Payments. Non-availability of the Cloud Services to Purchaser Users due to Non-payment is an unavoidable process (Just like Electricity / water / telephone billing) and Purchaser needs to ensure 100% payment on-time to avoid such situation.
- **Price Escalation** – If not defined in PO, minimum price escalation of 15% will be applicable on last year's value. CLOUD UNDERSTANDING

- **ERP availability** : ERP will be available to Users 24 hrs x 365 days. Normally User will get 98% uptime. So System will be available for nearly 8,600 hours in a year. In Manual / Client-Server based ERP, Purchaser has access to ERP maximum for 1250 hours. (250 working days in a year x 5 hours of working per day). So in all, seven times more time will be available on Cloud ERP to Purchaser Users.
- **Cloud Philosophy** : Cloud works on the philosophy, single ERP application with single database for all the Campuses with always latest single Cloud to all. So

Ashase

due to multiple Purchasers on same cloud, Purchaser specific customizations are not technically possible for any Purchaser. Cloud provides large configurations so that Cloud can be configured to match most of the User requirements with little cosmetic / Procedural compromises. So If CCMS Cloud is providing requirements with some cosmetic / Procedural limitations, User needs to accept it. No immediate customizations can be given to Campus. Certain important & must have requirements – which are technically feasible without affecting the ERP database structure - may be added by Supplier in next update of Cloud – in the form of Configuration / Option. Till that time, User needs to use Cloud with certain alternative method proposed by Cloud expert team.

- **Cloud Implementation:** Cloud ERP is role based and very easy to use. Supplier will provide adequate training to Users. However it's a major application & success requires a lot of User Understanding + co-operation & management pursuance at initial stages. Most of the Purchasers are replacing their existing MIS with this new one. So Basic MIS structures of two MIS are different and User will need some time to adjust to new Cloud flow & methodology. Cloud can never be made same as Purchaser's old MIS. Purchaser User will never insist for Changes as per their old MIS. Such strong view by Purchaser User's will lead to either delays in implementations or at times in failures.
- **High speed internet in Campus:** High speed internet is must in Campus especially when students are accessing the Cloud MIS from Campus. Adequate Internet speed needs to be provided by Purchaser based on number of Users who may access Cloud MIS simultaneously from Campus. For un-interrupted internet connectivity, It is preferred that Campus has internet connections from multiple agencies with proper fire-wall so that users do not have access to unnecessary entertainment site where heavy internet may be used un-necessarily. Institute needs to make such arrangement. Purchaser may require extra internet at the time of admissions, examination when student will access Cloud regularly.
- **Cloud Software upgrade / Maintenance & downtime:** ERP will not be available or may be available at slow speed for short time during ERP patches uploading, backup, Cloud maintenance, Diagnostics analysis & security report generation – normally in late evening. Cloud Backup / Analysis time will be normally at midnight & system will be slow for an hour. In cloud technology, latest upgrades of procured modules are automatically available to all the Users with necessary documentation – all at no extra cost.

Normally all the **major ERP / MIS upgrades** will be uploaded in Cloud by Supplier after every three months, on Saturday afternoon & Sunday when Purchasers are not working with prior information on Cloud Server for all the Users - well in advance. However small patches will be uploaded regularly to

meet urgent demands / security concerns. So Cloud will be off for Users for few minutes during patch uploading / few hours during major upgrade & testing.

However there can be a rare maintenance schedule (Scheduled / as well as breakdown) by Cloud company for Cloud Hardware, network, System software or Malicious attacks. This will lead to non-availability of Cloud ERP to Users for few hours. All efforts will be taken to avoid any scheduled maintenance during Purchaser working hours.

- **Cloud Speed at User Computer:** The Supplier's Cloud service is of very high speed. However Speed of ERP at User Computer solely depends on configuration of User Computer / mobile, internet speed at that moment in his computer & Health of computer. For better speed of ERP, user needs to optimize his computer by making it virus free, removing cookies, deleting temporary file, deleting un-necessary software resident in RAM.

- **Data Security, Hacking, data Leakage Backup & Disaster Recovery:** Supplier will 100% ensure that there is no deliberate sell / sharing / leakage of Purchaser data to any third party. In case a Supplier employee is involved in such practices, strict action will be taken against him.

Best security methodologies are adopted by Supplier & they are continuously improved. Also multiple backup & recovery arrangements are in place. In case of any Disaster due to any reason (such malicious attack by Hackers / Virus / sabotage, Fire / Flood at Cloud premises, Earthquake/ damage due to Riots / strikes etc.); data may be lost / corrupted / leaked/compromised. Supplier's limited liability in this case will be immediate restoration of System & latest data from its backup & re-start the cloud services. Purchaser will co-operate with Supplier during this rarest of rare occasion, if occurs. If at all there is some data loss due to time gap between available backup & current status, Purchaser needs to re-enter the same. All over world, there is no solution of data loss / leakage / theft due to virus/ cybercrime & accidental disclosures and Supplier will not be liable for any Penalty or Criminal / civil cases for such events where there are no act of deliberate mis-conduct by Supplier.

However, Purchaser will also have a back-up provision by which Purchaser can download its data from Cloud as safety measure. To avoid data leakage / share from Purchaser end, Purchaser needs to ensure that only one person is responsible for such data backup operations & the person does not share the Password with anyone under any circumstances.

Acharya

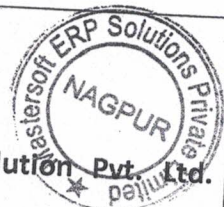

SMS & Email Delivery: With due diligence, Supplier has integrated a third party SMS Gateway in ERP which is common to all its Client & the same will be provided to Purchaser. SMS gateway services are governed by GOI TRAI norms / rules and hence Supplier will not be responsible for delays in SMS / Non receipt of SMS in few nos. As per TRAI / SMS company norms, SMS rates may get changed in-between, without any notice. In such case, allotted SMS quantity to Purchaser may get reduced. No other – Client specific SMS Gateway will be integrated by Supplier.

General : By using the CCMS Cloud ERP services in any manner it is deemed that Institute & its Users have accepted and are bound by the standard terms and conditions posted on CCMS Cloud ERP. The company Supplier ERP Solutions Pvt. reserves the right to modify/amend/add or deletes any of the terms and conditions mentioned on web site any time without any notice or information to the User.
