REPORT ON THE NATIONAL SCIENCE DAY (28-02-2023)

Theme for 2023: "Global Science for Global Wellbeing"

Introduction:-

28th February is celebrated as National Science Day (NSD) in India. NSD is celebrated to commemorate discovery of the 'Raman Effect', which led to Sir C.V. Raman winning the Noble Prize.

In 1986, the National Council for Science and Technology Communication (NCSTC) asked the Government of India to designate 28 February as National Science Day which the then Govt. of India accepted and declared the day as National Science Day in 1986. The first National Science Day was celebrated on February 28, 1987.

What is Raman Effect?

Raman Effect is a phenomenon in spectroscopy discovered by the eminent physicist Sir Chandrasekhara Venkata Raman in 1928. After two years in 1930, he got Nobel Prize for this remarkable discovery and this was the first Nobel Prize for India in the field of Science. While working in the laboratory of the Indian Association for the Cultivation of Science, Kolkata.

Raman Effect is a change in the wavelength of light that occurs when a light beam is deflected by molecules. When a beam of light traverses a dust-free, transparent sample of a chemical compound, a small fraction of the light emerges in directions other than that of the incident (incoming) beam. Most of this scattered light is of unchanged wavelength. A small part, however, has wavelengths different from that of the incident light; its presence is a result of the Raman Effect.

Objective of the programme:-

The basic objective of National Science Day is to spread the message of the importance of science and its application among people. Every year, National Science Day is celebrated as one of the main science festivals in India in order to achieve a number of goals.

The objectives include spreading a message about the significance of scientific applications in the daily life of people, displaying all the activities, efforts, and achievements in the field of science for the welfare of human beings, discussing all the issues and implementing new technologies for the development of science, and encouraging people as well as popularizing science and technology, among others.

THE NATIONAL SCIENCE DAY (28-02-2023)

Report Prepared by Science Committee, Shivneri Mahavidyalaya, Shirur Anantpal

National Science Day is a great occasion to highlight the importance of science in the world and to encourage young minds to take up this subject

National Science Day 2023

This year's edition is being celebrated under the theme of "Global Science for Global Wellbeing", in light of India's G20 presidency.

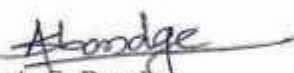

Programme Details:-

National Science Day is celebrated in Shivneri Mahavidyalaya with great enthusiasm on 28th of February 2023 in order to commemorate the invention of the Raman Effect in India by the Indian physicist, Sir Chandrasekhara Venkata Raman on the same day in the year 1928. The theme of the year 2023 is "**Global Science for Global Wellbeing**". The ultimate aim of celebrating the day is to provide awareness of Science among the B. A., B. Com. & B. Sc. students. The following experts delivered excellent talks on different areas of science and the theme.

1. **Dr. Pradeep Deshmukh**, Assistant Professor, Department of Mathematics, Rajarshi Shahu Mahavidyalaya, Latur. on **Career in Mathematical Sciences**.
2. **Dr. Rameshwar More**, Assistant Professor, Department of Chemistry, Shahu Mahavidyalaya, Latur on **Career in Chemical Sciences**.
3. **Dr. Krishna Sir**, Director, Krishna Coaching Classes, Latur on **Career Guidance**.
4. **Dr Shivaji Umate**, Director, Umate Coaching Classes, Latur on **Career Guidance**.

Dr N B Surywanshi, Incharge Principal, Shivneri Mahavidyalaya has delivered the presidential remarks and emphasized on integrating science and technology and recognizing the needs of the society for a sustainable future. Dr A S Bondge, Chairman, Science Committee of our college, Mr. R A Andhare, Academic Incharge, Science Faculty and all science staff were present in the event.

The Programme was conducted in seminar Hall, and more than 100 students and faculty members attended the function. Competitions such as Poster and Rangoli were also conducted for students on this occasion.

Subject: Invitation as a Chief Guest for National Science Day-2023.

Dear Sir,

We have decided to organize National Science Day on 28/02/2023. We would like to invite you to preside over as chief guest for the National Science Day-2023 of our College, that is to be held on the 28th of February, 2023. Like every year, we are organizing the National Science Day inside the college campus. The theme of the year 2023 is "**Global Science for Global Wellbeing**".

We have planned a number of events which will start from 11.00 a.m. We are expecting you to inaugurate the function and also give your thoughts on **Career in Chemical Sciences and on the theme of NSD-2023.**

We are looking forward to positive response from you.

Thanking you
