## NATIONAL SCIENCE DAY-2024

ON THE THEME

### 'INDIGENEOUS TECHNOLOGIES FOR VIKSIT BHARAT'

#### **Introduction**

28<sup>th</sup> February is celebrated as National Science Day (NSD) in India. NSD is celebrated to commemorate discovery of the 'Raman Effect', which led to Sir C.V. Raman winning the Noble Prize.

In 1986, the National Council for Science and Technology Communication (NCSTC) asked the Government of India to designate 28 February as National Science Day which the then Govt. of India accepted and declared the day as National Science Day in 1986. The first National Science Day was celebrated on February 28, 1987.

#### **What is Raman Effect?**

Raman Effect is a phenomenon in spectroscopy discovered by the eminent physicist Sir Chandrasekhara Venkata Raman in 1928. After two years in 1930, he got Nobel Prize for this remarkable discovery and this was the first Nobel Prize for India in the field of Science. While working in the laboratory of the Indian Association for the Cultivation of Science, Kolkata.

Raman Effect is a change in the wavelength of light that occurs when a light beam is deflected by molecules. When a beam of light traverses a dust-free, transparent sample of a chemical compound, a small fraction of the light emerges in directions other than that of the incident (incoming) beam. Most of this scattered light is of unchanged wavelength. A small part, however, has wavelengths different from that of the incident light; its presence is a result of the Raman Effect.

#### **Objective of the programme:-**

The basic objective of National Science Day is to spread the message of the importance of science and its application among people. Every year, National Science Day is celebrated as one of the main science festivals in India in order to achieve a number of goals.

The objectives include spreading a message about the significance of scientific applications in the daily life of people, displaying all the activities, efforts, and achievements in the field of science for the welfare of human beings, discussing all the issues and implementing

THE NATIONAL SCIENCE DAY (28-02-2024)

Report Prepared by Science Committee, Shivneri Mahavidyalaya, Shirur Anantpal

new technologies for the development of science, and encouraging people as well as popularising science and technology, among others.

National Science Day is a great occasion to highlight the importance of science in the world and to encourage young minds to take up this subject

### **National Science Day 2024**

The theme of NSD-2024 is "**Indigenous Technologies for Viksit Bharat**". The NSD Theme for this year's celebration reflects a strategic focus on promoting public appreciation for Science, Technology and Innovation and accomplishments of Indian scientists to address challenges through home-grown technologies for over-all well-being.

The Theme not only marks a new era but also presents an opportunity for public and scientific fraternity, both domestically and internationally, to collaborate, work together, and contribute to the well-being of India and humanity as a whole. While emphasizing the importance of making India Atmanirbhar through science, it underscores the need to address subjects that hold significance for humanity as a whole.

In the wake of recent scientific achievements, it may be underscored that the rising trajectory of India over past 10 years is being witnessed globally. We are globally among the top five countries in scientific research publications, 40th in Global Innovation Index (GII) showcasing remarkable climb from 81st rank in 2015 and our patent filing has crossed 90,000 which is highest in two decades.

All this is due to strengthening of S&T ecosystem in the nation in fields such as Artificial Intelligence, Astronomy, Solar & Wind Energy, Semiconductors, Climate Research, Space Research and Biotechnology. Indian scientific breakthroughs have reached from the lab to moon; with the successful landing of Chandrayaan-3 on South Pole of moon, India became the first country to achieve this feat.

India is also acknowledged for robust vaccine development capacity, and it has been proved during COVID pandemic. India is now ready to match the global stride in Quantum Technology. The impact of Indian scientific breakthroughs is significantly enhancing the 'Ease of Living' for the common man.

### **About the NSD-2024 celebration in SMSA**

The National Science Day is celebrated with interest and enthusiasm in Shivneri Mahavidyalaya, Shirur Anantpal on 28th February 2024. The basic purpose of this day is to inspire students to new experiments, attract them to science, and make them aware of science and scientific achievements. Also spread a message about the importance of science used in the daily life of the people.

On this occasion of National Science Day, this year our college has privilege of having two Scientists as Guests. The students had interacted with them and got clarifications for their queries and also experienced the proud moments of honoring the Great Scientists "Dr. G. R.

THE NATIONAL SCIENCE DAY (28-02-2024)

Report Prepared by Science Committee, Shivneri Mahavidyalaya, Shirur Anantpal

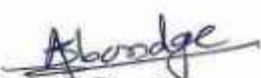

Nagargoje" and Dr. V S More for their contribution to the field of Science, and Chemistry in particular.

All the dignitaries paid a floral tribute to portraits of Sir C.V Raman. Dr. A. S. Bondge, the Chairman, Science Association has given introduction of both Scientists and presented formal speech. I/C Principal Dr. N. B. Surywanshi welcomed the gathering.

Chief Guest Dr G R Nagargoje motivated students to develop self confidence and to strive to bring out new discoveries. He spoke on Science for Humanity. Chief guest Dr V S More mentioned that learning, experiencing life, technology and principles are different aspects of Science. He told that the Covid-19 pandemic is a challenge for science and emphasized that for better future science and technology especially medical and health science should be developed. Earlier to this Dr. V K Mukke proposed the vote of thanks. The events were closed with National Anthem. B.Sc second year students Kumari Asawari Chamle anchored the Programme. Dr A M Late, Academic Incharge, Science Faculty and all science staff were present in the event.

The Programme was conducted in seminar Hall. Competitions such as Poster and Rangoli were also conducted for students on this occasion.

On the occasion of National Science Day on 28<sup>th</sup> February, 2024.**

Dear Sir,

On behalf of Shivneri Mahavidyalaya, Shirur Anantpal and Science Committee, we are honored to invite you as Chief Guest for Inauguration of Science Exhibition on the occasion of National Science Day Which is scheduled on Wednesday, 28<sup>th</sup> February, 2024.

The program goal is to build awareness on providing information about "Indigenous Technologies for Viksit Bharat" held in seminar hall of our college.

Thank you in advance for your consideration and we are looking forward to hearing soon.

Thanking you.
